Hey Stacie:

Unfortunately, the Excel spreadsheet you attached does not include all required information. Were you able to open the Excel spreadsheet that I had sent to you? It lists all the required elements so filling out the spreadsheet completely ensures that you have provided all required information. Your attached Excel document is missing the following required elements:

- full name and address of the destination facility(ies) in each receiving country
- name and EPA ID number of each transporter used to transport the hazardous waste shipments
- text description, DOT hazard class number, and applicable RCRA hazardous wastes for each specific waste
- total quantity shipped and total number of shipments for each specific waste
- summary statement on the efforts your company made to reduce the amount and toxicity of the waste and any information you have on any

decreases in the amount generated as compared to previous years (if your company generated the waste)
signed statement certifying to the accuracy and completeness of the annual report

The first tab on the document that I sent included instructions. You are not required to use the optional spreadsheet but you are required to include all information required in 40 CFR 262.56 and/or 40 CFR 262.87 (a). If you have questions about how to fill out the spreadsheet, please email or call me.

Sincerely,

Laura L. Coughlan, P.E.

Attached is the optional Excel spreadsheet that you may use to create your CY2010 report and/or your CY2011 report. Use of the spreadsheet is not required, but it contains all required elements. Using it to create the reports and emailing a copy of the excel document when you mail the printed and signed version will make it easier for EPA to review and compile your company's export data. Please let me know if you have any questions about the spreadsheet.
